ABOUT GENEVIEVE

Geneviève L'Heureux's artistic work, whether drawing or print, geometrical or figurative, attempts to express what belongs to the senses, to touch with evocative and emotional work. She proceeds to do this by challenging the well accepted theory that contrasting concepts such as dark/light, mass/lightness or line/surface stand as polar opposites. In her work, these notions purposefully co-exist and this coexistence creates tension and instability. Her methods of choice include etching, aquatint, water bite, spit bite and mezzotint which she uses to simultaneously convey precision and expression.

Geneviève is a member of California Society of Printmakers, Boston Printmakers and Society of American Graphic Artists and has her studio at Yosemite Place in San Francisco.
